

Basic Information

Title: Maintenance Mechanic
Department: Maintenance – Westmoreland
Status: Full Time
Shifts: 2nd shift: 3pm-11:30pm, Sunday-Friday, rotating weekends
Reports to: Lead Mechanic

Essential Functions

Ukrop's Homestyle Foods is looking for a dedicated, enthusiastic and self motivated Maintenance Mechanic for our Westmoreland facility. A Maintenance Mechanic is responsible for performing daily maintenance and repairs of production equipment in UHF facilities.

Primary Responsibilities

- Perform duties in a way that ensures manufacturing equipment is properly maintained and operating at full production capability

Tasks Performed

- Troubleshoot, repair and maintain support and manufacturing equipment and machinery
- Perform preventive and corrective maintenance accurately and timely
- Analyze test results, error messages, and information obtained from operators to diagnose and recommend equipment repairs
- Perform lockout/tag out procedures as needed to secure equipment according to guidelines
- Help to ensure equipment, fire and electrical safety are being adhered to during walk through of plant
- Build and maintain positive relationships with plant leadership and associates

Other Qualifications

- Must have 5 years maintenance experience, at least 2 in a manufacturing facility
- Commitment to meeting manufacturing goals in the areas of safety, cost, quality, production performance and customer service
- Knowledge of electrical and machine control troubleshooting skills
- Strong analytical skills
- Ability to work in a dynamic manufacturing environment
- Ability to work independently and with others
- Ability to prioritize workload
- Excellent communication and interpersonal skills

Vocational/Educational Requirements

- Desired Education – High School Diploma
- Desired Job Experience – Automation control experience, PLC and/or refrigeration skills are a plus
- Required Certifications –Completion of Trade School and State Certification or equivalent
