Heating Instructions

Breakfast Quiche

For best results, heating in a conventional oven is recommended.

Conventional Oven: Preheat oven to 350°F. Remove quiche from plastic container. Leaving it in the aluminum pan, place uncovered in oven and heat for 25-30 minutes or to desired serving temperature.

Microwave: Remove quiche from plastic container and aluminum pan. Cut into single servings and place on a microwave-safe dish and heat for approximately 1 minute per serving.

Actual heating times may vary.

Honey Baked Apples

Conventional Oven: Preheat oven to 350°F. Remove film. Place container in the oven and heat for 20-30 minutes or to desired serving temperature. If heating more than one container, we recommend placing containers on a sheet pan before placing in the oven.

Microwave: Vent corner of film. Microwave on high for 2-4 minutes, or until desired temperature.

Actual heating times may vary.

Smokehouse Tavern Ham on Petite Biscuits

Room Temperature: Allow biscuits to sit at room temperature for 20-30 minutes before serving.

Conventional Oven: Preheat oven to 350°F. Remove biscuits from container. Loosely wrap biscuits in foil and heat for 10-12 minutes or to desired serving temperature.

Microwave: Place 2-4 biscuits on microwave safe dish and cover with a paper towel. Heat for 20-30 seconds.

Actual heating times may vary.

Leftovers: Any leftovers should be refrigerated promptly. A general recommendation is to refrigerate within 2 hours of removal from oven.
