Turkey Breast Á La Carte

Handling & Heating Instructions

Handling:

Keep refrigerated.

Unopened and properly refrigerated turkey is good until **11/29/2025**.

Consume turkey breast within 2-3 days of opening.

Serving Suggestions:

The turkey breast is fully cooked and ready to serve.

Turkey breast may be served cold or heated.

Turkey Breast:

Please see included Preparation Directions packaged with the turkey breast.

Homestyle Gravy:

Stove Top (recommended): During final 10 minutes that the turkey is in the oven, heat gravy on stove top by emptying contents into a saucepan and heating over medium heat to desired serving temperature. Stir gravy occasionally during heating to ensure even heating.

Microwave: Container is microwave safe. Vent lid on gravy container. Microwave at 80% power for approximately 2-4 minutes or until desired serving temperature is reached. Stir gravy occasionally during heating to ensure even heating.

Leftovers:

Any leftovers should be refrigerated promptly. A general recommendation is to refrigerate within 2 hours of removal from oven.
